

Geothermal Resources Council Serials Collection

This document lists most of the serials (journals, newsletters, etc.) held in the GRC Library. The articles in some issues have been catalogued in the GRC online database, but many have not. All publications are in English and published monthly unless otherwise noted.

There are several gaps in our holdings. If you are interested in donating copies of these or any other geothermal-related publications, please contact Tim Gladson (tgladson@geothermal.org) or Brian Schmidt (bschmidt@geothermal.org).
